PROFESSIONAL SUMMARY

Entry-level information technology candidate with an Associate of Science in Information Technology and a Bachelor of Science in progress. Brings hands-on experience with Linux, Proxmox, networking, storage, monitoring, technical troubleshooting, documentation, and a paid client website in production, along with reliable customer communication developed in time-sensitive environments.

TECHNICAL SKILLS

IT Systems: Linux, Proxmox VE, virtual machines, networking fundamentals, NFS, SSH, storage, backups, systemd, and service troubleshooting

Infrastructure: Caddy, Cloudflare Tunnel, WireGuard, Grafana, Prometheus, Ansible fundamentals, Plex

Web Foundations: semantic HTML, basic CSS, Flexbox and CSS Grid concepts, responsive-layout fundamentals, accessibility fundamentals, Decap CMS, image optimization

Tools: Git, GitHub, Visual Studio Code, browser developer tools, command-line workflows, technical documentation

TECHNICAL PROJECTS

Patrick Home Lab | *Proxmox and Linux Infrastructure*

- Operate a Proxmox-based environment with Linux virtual machines providing Plex media streaming, NFS storage, secure remote access, reverse-proxy services, monitoring, and Ansible-based automation.
- Integrated 12 TB media storage, updated persistent mounts and NFS exports, and verified Plex access after migrating services from an 8 TB disk.
- Troubleshoot VM, network, DNS, storage, mount, and service issues using Linux command-line tools and documented verification steps.

ScapeLift Property Management Website | *Paid Client Project*
scapeliftpm.com

- Delivered a responsive production website with HTML, CSS, JavaScript, image galleries, and editable business content.
- Implemented a Decap CMS content workflow and resolved navigation, responsive-layout, deployment, and publishing issues.
- Optimized site images and galleries, reducing total image transfer from approximately 37 MiB to 13 MiB.

Command Atlas | *Desktop Command Reference Application*

- Developed a desktop command-reference application with a searchable database of more than 8,000 AWS, Windows, PowerShell, Linux, and platform commands.
- Improved search and ranking behavior through iterative debugging, automated testing, and Git/GitHub version control.

PROFESSIONAL EXPERIENCE

Delivery Driver | *Dolese Bros.* | *August 2021 - Present*

- Resolve customer, scheduling, and delivery issues in real time while protecting service accuracy, safety, and deadlines.
- Communicate with customers, dispatchers, and team members, prioritize changing requests, and maintain reliable records in a time-sensitive environment.

Delivery Driver | *Brown Transportation* | *September 2019 - May 2021*

- Completed time-sensitive assignments, adapted to changing routes and customer needs, and maintained safety and operational standards.

EDUCATION

Bachelor of Science in Information Technology | *Full Sail University* | *Anticipated February 2027*

Associate of Science in Information Technology | *Full Sail University* | *Completed September 2025*
